

CAI's [Orange County Chapter](#), led by chapter president and Foundation director Fred Mellenbruch and chapter executive director Kathy Gonzales, recently set a goal to donate 30 Adopt-a-Library grants to mark the chapter's 30th anniversary. The chapter made its first presentation to the Tustin Public Library, part of California's Orange County Library system (pictured here).

"The Branch Manager had all the publications on display in the front of the library when we arrived," said Gonzales. "A couple of publications had already been checked out by members!" A photo of the display is pictured here.

The display remained at the front of the library for approximately three weeks and then the publications were shelved in the library's research section. The chapter was even asked to return with CAI membership materials to display with the publications.
